RE: Concussion and Head Injury for the Fondy Junior Football League

Effective April 2012, Wisconsin Act 172 requires that before a student may participate in practice or competition the Fondy Junior Football League provide you with information regarding concussion and head injury. Parents and/or guardians are required to sign the enclosed information sheet prior to participation. A copy of 2011 Wisconsin Act 172 - 118.293 is available at <http://www.wiaawi.org/Health/Concussions.aspx>

Our athletic coaches, athletic trainers, or officials involved with the Fondy Junior Football activities will remove a student from youth athletic activity if the student exhibits signs, symptoms, or behavior consistent with a concussion or head injury or the coach, athletic trainer or official suspects the student has sustained a concussion or head injury. A student who has been removed from a youth athletic activity may not participate in a youth athletic activity until he or she is evaluated by a health care provider and receives a written clearance to participate in the activity from the health care provider.

<p>Signs and Symptoms of Concussions These are some SIGNS concussion (what others can see in an injured athlete): Dazed or stunned appearance Change in the level of consciousness or awareness Confused about assignment Forgets plays Unsure of score, game, opponent Clumsy Answers more slowly than usual Shows behavior changes Loss of consciousness Asks repetitive questions or memory concerns</p>	<p>These are some of the more common SYMPTOMS of concussion (what an injured athlete feels): Headache Nausea Dizzy or unsteady Sensitive to light or noise Feeling mentally foggy Problems with concentration and memory Confused Slow</p>
---	---

Injured athletes can exhibit many or just a few of the signs and/or symptoms of concussion. However, if a player exhibits any signs or symptoms of concussion, the responsibility is simple: remove them from participation. "When in doubt sit them out." The Fondy Junior Football League shall notify a parent or guardian when an athlete is thought to have a concussion. Any athlete with a concussion must be seen by an appropriate health care provider before returning to practice (including weight lifting) or competition.

RETURN TO PLAY

In order to resume activity, the athlete must be symptom free and off any pain control or headache medications. The athlete should be able to carry a full academic load without any significant accommodations. Finally, the athlete must have clearance from an appropriate health care provider. Athletes with multiple concussions and athletes with prolonged symptoms often require a very different return to activity program and should be managed by a physician that has experience in treating concussion. The following program is the recommended steps per 24 hours that the Fondy Junior Football League will be following. The program allows for a gradual increase in heart rate/physical exertion, coordination, and then allows contact. If symptoms return, the athlete should stop activity and notify their healthcare provider before progressing to the next level.

STEP ONE: About 15 minutes of light exercise: stationary biking or jogging

STEP TWO: More strenuous running and sprinting in the gym or field without equipment

STEP THREE: Begin non-contact drills in full uniform. May also resume weight lifting

STEP FOUR: Full practice with contact

STEP FIVE: Full game clearance

As a reminder, Agnesian HealthCare offers the ImPact Program used for the evaluation and treatment of head injuries. The ImPact Program is covered at the parents expense.

Fondy Junior Football

As a Parent and as an Athlete it is important to recognize the signs, symptoms, and behaviors of concussions. By signing this form you are stating that you understand the importance of recognizing and responding to the signs, symptoms, and behaviors of a concussion or head injury and certify that you have read, understand, and agree to abide by all of the information contained in this sheet. You further certify that if you have not understood any information contained in this document, you have sought and received an explanation of the information prior to signing this statement.

Parent Agreement:

I _____ have **read** the Parent Concussion and Head Injury Information and **understand** what a concussion is and how it may be caused. I also understand the common signs, symptoms, and behaviors. I agree that my child must be removed from practice/play if a concussion is suspected. I understand that it is my responsibility to seek medical treatment if a suspected concussion is reported to me. I understand that my child cannot return to practice/play until providing written clearance from an appropriate health care provider to his/her coach. I understand the possible consequences of my child returning to practice/play too soon.

Parent/Guardian

Signature _____ Date _____

Athlete Agreement:

I _____ have **read** the Athlete Concussion and Head Injury Information and **understand** what a concussion is and how it may be caused. I understand the importance of reporting a suspected concussion to my coaches and my parents/ guardian. I understand that I must be removed from practice/play if a concussion is suspected. I understand that I must provide written clearance from an appropriate health care provider to my coach before returning to practice/play. I understand the possible consequence of returning to practice/play too soon and that my brain needs time to heal.
